Recognizing Aspiration – College Associations

The Road Ahead – Joining Hands for a Cause

In May 2015, CybageKhushboo signed a Memorandum of Understanding (MoU) with iTeach Schools; an offshoot of the Teach for India Initiative. The three-year association was established in the form of a private-public partnership with the Pune Municipal Corporation (PMC) adopting Sant Gadge Maharaj English Medium School, Kondhwa. The noble aim that powered this alliance was to ensure that students from economically and socially challenged backgrounds get a chance to complete their schooling, post their seventh standard. The alliance helped create a stepping stone to bridge the need gap and fulfill the students' educational needs.

It was a proud moment for CybageKhushboo when the first batch of students received their grade tenth results. A total of 42 of 44 students successfully passed their first boards, of which 15% achieved distinction! These students were handheld by CybageKhushboo and nurtured through university to provide for a stepping stone into the outside world.

The Movement for a Digital India

CybageKhushboo, in association with NASSCOM Foundation, PMC and Pune City Connect, launched the Digital Literacy Bus in May 2017. This initiative has been taken to promote the use of digital technology in everyday life, including cashless transactions.

The bus has started functioning from Tadiwala Road in May 2017. CybageKhushboo's mission is to empower at least 900 people in the age group of 14–65 years with basic digital literacy skills by the end of 2017. The bus is set to function as a mobile digital literacy center and is equipped with computers and internet connection, providing a classroom-like environment to the beneficiaries.
